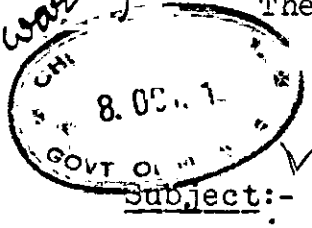
FROM

THE SECRETARY

TO THE HON'BLE THE RESIDENT IN MYSORE.

To

The Chief Secretary to the Government of Mysore, Bangalore.



Dated Bangalore, the 7th October *1942*

Subject:- Vulnerable Points

SIR,

I am directed to say that the Air Defence Committee of General Headquarters have prepared, in order of priority, a list of vulnerable points requiring anti-aircraft protection. The vulnerable points situated within the Mysore State are given in the enclosed statement. This list can in no way be regarded as final, and if the Government of Mysore consider that any additional vulnerable points require anti-aircraft protection, this Residency may kindly be informed. The Government of India state that anti-aircraft protection will be given in due course to these points, but guns may not be available for a considerable time and this must depend on the strategic situation.

2. In view of the fact that inhabited localities adjacent to the vulnerable points have in all cases already been classified as Class I or II for Civil Defence purposes, it is not at present considered necessary to alter this classification. The proximity of a town however to a vulnerable point must necessarily increase the risk of airattack, and it is important that adequate A.R.P. measures should be taken in all inhabited localities within a radius of two miles. In particular, steps should be taken to place all vulnerable points on the "Yellow" warning list, and these

installations should receive priority of treatment for unexploded bombs and any other assistance that may be required.

3. I am to request that the secret nature of this communication may kindly be observed, and the information communicated to as limited a number of officials as possible. The District Magistrate and A.R.P. Controller of any area in which a vulnerable point is situated may however be informed.

I have the honour to be,

Sir,

Your obedient servant,

Secretary to the Resident in Mysore.

MYSORE.
